

PARTNERSHIPS

To nurture the connections within the community and with our external partnerships, toward enhancing learning experiences

OBJECTIVES

To deepen engagement within and outside the school community

STRATEGIES

- Access and mobilise external resources such as human resources
- Provide expertise from individuals and organisations to further and nurture student talent and interest
- Partnering with agencies that strengthen processes and data to create a robust and seamless system
- Connecting with organisations and institutions for standardisation, drawing expertise and benchmarking our programmes and initiative
- Create and maintain a robust alumni network
- Capitalise on the parent body
- Encourage and support partnerships and initiatives driven by student agency
- Empower students as Real-world problem solvers
- Encourage social entrepreneurship among students
- Enhance opportunities for student-led activities and initiatives within and outside of school.

MEASURES/INDICATORS OF SUCCESS

- Collaboration between and across sections of the school takes place more often (e.g. mentoring, cross departmental collaboration, PLCs)
- Alumni connections in terms of numbers and contributions
- Parents and alumni offer increased contributions such as internships and leadership opportunities for current students
- Feedback on CIS Annual Community Survey
- Seniors guide juniors on research initiatives, tips to navigate College Counselling processes, LD awareness, Well-being week,
- Student's individual projects are recognised by school
- Increased collaboration between DAIS students, external professionals and other students.
- Feedback on CIS Annual Community Survey

RESOURCES NEEDED

Alumni Engagement Team Software (e.g. Univariety) Calendared time toward developing community connections
